

BioConnection BV

BioConnection B.V. is a Contract Manufacturing Organization (CMO) located at the Pivot Park campus in Oss, The Netherlands. We support our clients - innovative (bio)pharmaceutical companies - by offering state of the art development and GMP compliant manufacturing services for sterile Drug Products, both for clinical and commercial purposes. We operate from our own facility in Oss, which has EMA and FDA certification, and via a network of European CMO partners to meet the specific needs of our clients, we bring value to our customers through our expertise, dedication, customer orientation and flexibility. BioConnection is a rapidly growing company, currently expanding its manufacturing capacity with a new line.

The Program Management team within BioConnection is responsible for the efficient and smooth execution of manufacturing projects, by managing multi-disciplinary teams with members from our clients, our own manufacturing organization, and our network partners. It is an exciting work field with challenging projects which never give you a dull moment. Besides we help our clients to add to the Quality of Life of patients suffering life-threatening diseases. We are looking for a colleague who has the knowledge, experience, attitude and drive to manage the programs for "her/his" own clients (accounts) and contribute to our further growth.

Program Manager (fulltime)

Primary responsibilities

- Within each program, i.e. set of projects for one client, the Program Manager is responsible for: Deliverables, Planning, Communication, Budget
- Financial management of the program
- Drive internal and external suppliers to reach program deliverables on time and as agreed with the client
- Write commercial quotations for "your" accounts
- You report to the Director Program Management and Business Development

Profile

- Ability to lead the project team to overcome challenges and meet tight deadlines
- Being able to recruit, motivate, monitor and evaluate team members assigned to the project
- Capable to maintain a 'helicopter view' and do not get lost in details (leave that to the expert team members)
- Strong nature to develop and sustain trust based professional relationships with clients, internal, and external stakeholders
- Resilient and calm under challenging, time-critical conditions
- Commercial attitude so you can extend your client's program by generating more projects
- The ability to switch easily between different projects on a day to day basis
- Excellent communication and interpersonal skills, ability to work well with others, diplomatically mediate conflict and build consensus without compromising the program goals
- Customer oriented, acts as a key person between customer and the project team
- Knowledge of drug development is a plus
- Knowledge of Project Management methods, like IPMA, Prince (or another recognized education)
- MSc in Life Sciences, Chemistry, Pharmacy
- Minimum of 5 years work experience in Biotech/Pharma or a related work field
- Fluency in English is essential; knowledge of Dutch is preferable
- Enjoying to solve the complex puzzles which might appear in your project
- Having a sense of humor will be appreciated

We offer

- A salary in accordance to market standards and a company and personal performance oriented bonus
- We encourage our employees to continuously develop themselves, therefore we offer an annual learning budget
- 30 days of leave when you have a full-time position
- Pension provisions for your retirement phase of life

Your application

If you are enthusiastic about this job and recognize, understand and are able to take on the challenges that go with a young, enthusiastic, growing and entrepreneurial company then we are looking for you! Please send your motivation and curriculum vitae to our HR Manager Dana Kalasek at vacatures@bioconnection.eu citing BC2007.
